WHAT TO WEAR FOR YOUR FAMILY PHOTO SESSION

A guide to stress-free styling for
your family photo session

www.stylishhipkids.com

Hey there!

Your photoshoot is the perfect excuse to wear something that tells exactly who you are while still being super comfortable.

We love color, and we're definitely not afraid of patterns! We also adore neutrals with a fun touch here and there.

The goal isn't to look like everyone else's family photos. It's to look like the most authentic, beautiful version of your family.

Whether this is your maternity session, newborn adventure, or family photoshoot, this guide is here to help you have fun with the process of choosing what to wear.

Because honestly? Getting dressed shouldn't stress you out more than chasing a toddler around Brooklyn!

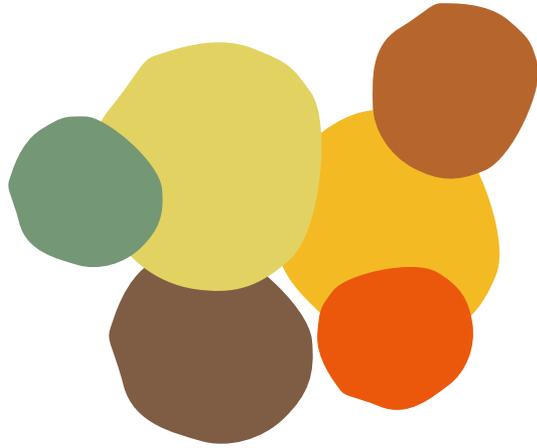

Let's make this process fun, not overwhelming. ✨

WHEN
YOU
FEEL
AMAZING**

01.COMFORT FIRST

Choose pieces that feel like an elevated version of your everyday self, but that are still super comfortable to wear. We want everyone to feel confident. If the fit feels weird or your kids hate what they're wearing, it will show in the photos.

02.THINK COORDINATION, NOT MATCHING

Gone are the days of identical outfits. Create a beautiful color story where everyone gets to be themselves while looking cohesive together.

03.THIS VERSION OF YOUR FAMILY MATTERS

Don't wait for the "perfect" moment or "perfect" clothes. Your family right now - with all the beautiful chaos and real moments - is what we want to capture.

PRO TIPS

- Bring backup outfits for kids!
- Comfortable shoes are essential - if you love heels, bring them in a bag for special shots
- Bring accessories! Hats, sunglasses, scarves, cool bags, your doggie!

FREE BONUS

Put everything together, take a quick photo with your phone, and send it to us for our feedback!
